

Admissions & Records Update November 21st, 2024

Dual Enrollment Updates

A new special admit form for dual enrollment students to use was released [online](#) on November 5th to support student self-registration beginning with Priority 3 enrollment on December 19th.

The new special admit form is designed to be completed one time in the dual enrollment student lifecycle so long as the student maintains continuous enrollment. The new form simplifies the process for incoming students and adapts to the information the student provides to ensure any supplemental information the student would need to provide as part of the admissions process is collected. The form also will be completely electronic and eliminate the need to email PDF documents back and forth further streamlining the dual enrollment process.
