

District Curriculum Coordinating Committee (DCCC)

February 24, 2017 2:30 p.m. to 4:30 p.m. Chancellor's Conference Room

MINUTES

Members Present:

Jamey Nye (DO), Lynn Fowler (AO), Shania Pence (Student rep)

ARC: Hugh Howard, Marie Schirmer

CRC: Michael Lawlor (DCCC Chair) Brian Noel (Chair), Amanda Paskey, Torence Powell (for

R. Montanez)

FLC: John Alexander, Eric Wada (Chair)

SCC: Dyan Pease (Chair), Brett Thomas, Richard Yang

- I. Call to Order: The meeting was called to order at 2:32 PM.
- II. Approval of Agenda: The future agenda item, "Rule of 6," was removed as it is already being addressed in the "requisite alignment" discussion. Otherwise, the agenda was approved by consent.
- III. Approval of Minutes: The minutes from the January 27, 2017 meeting were approved by consent.

IV. Announcements/Updates

- A. Introductions, New members, Guests: The new student representative, Shania Pence from FLC, was welcomed to the committee.
- B. Announcements None.

V. Competency Committee Reports

- A. Reading Competency (Chair: Debora Larry-Kearney, FLC): The competency committees were asked to complete their reviews in time for this meeting, but the Reading Competency Committee reported that it was not able to complete its review of SOC 305 (CRC) in time.
- B. Math Competency (Chair: Jean Vrechek, Joseph Steever, SCC): There are no outstanding requests for Math Competency.
- C. Writing Competency (Chair: Josh Roberts, SCC): The Writing Competency Committee denied both RTVF 368 (CRC) and ARTH 301 (SCC). Due to voting irregularities (one individual voted twice), the vote looked like a tie. (See vote tally at the end of the agenda.) As a result, DCCC has requested a revote. DCCC also recommends that the Writing Competency develop a scoresheet based on their rubric similar to those used by the Math and Reading Competency Committees.

VI. Curriculum Proposals:

A. Courses/Programs by College

(All Courses/Programs are organized by college and listed at the end of these minutes.)

- ARC All courses and programs were approved unanimously. (MSP Noel/Pease). There was some discussion and clarification regarding MATH 372 and 373. The Business Information Worker program was brought back to DCCC with changes recommended by CCCCO prior to the NFN announcement. Jamey Nye clarified that NFN will now recommend but not approve programs.
- CRC All courses and programs were approved unanimously. (MSP Yang/Pease)
- FLC All courses and programs were approved unanimously. (MSP Noel/Fowler) NUTRI 340 included the prerequisites recommended by DCCC at the January meeting.
- SCC All programs were approved unanimously. (MSP Yang/Schirmer) The programs being deleted had been Board approved, but never submitted to CCCCO, hence never catalogued. Deletion explanations will be revised by Jamey Nye and manually included in the Board agenda.
- B. Status of Collaboration Requests ECE 424 was withdrawn by request of the developer because the change is no longer desired. ACCT 341 was withdrawn due to a change in signature contact that had stalled the proposal. It will be brought back now that the signature contact has been updated.
- C. Course Designator/Thematic Block Requests
 - 1. First Reading:

CHEM 80 - 89 (ARC) – No concerns

MIDWIF (ARC) – The Medical Assisting program at CRC has concerns that the Midwife Assistant program is very similar to the CRC MA program, with only a small amount of additional midwife training. CRC has no concerns in relation to the full Midwife Practitioner program. These concerns will be relayed to the developer.

MUIVI 200 - 209 (ARC) - No concerns.

HMONG (CRC) – No concerns.

2. Second Reading:

DCDT 170 – 179 (ARC) was approved unanimously. (MSP Wada/Alexander)

VII. Updates from the District –

Jamey Nye reported that ARC is leading an MOU to pilot the auto-prerequisite checker for English Literature courses. The pilot is likely to occur from Spring 2018-Spring 2019. The MOU will require temporary agreement on prerequisites for these courses across the district. Lynn noted that current requisites are in some cases more stringent than C-ID requirements, and Jamey noted that this is true in many colleges throughout the state. Jamey will also lead a small task force to revisit the current PPC process to ensure clarity and consistency. Michael Lawlor and some members of DAS will be included.

VIII. DAS Report

A. PPC Process – Michael Lawlor reiterated Jamey Nye's comments regarding the PPC task force.

- B. CSERV DAS has formed a task force to research literature, policies and procedures regarding Community Service in Los Rios and will make recommendations on its future viability.
- C. Course Caps on COR ARC, CRC and SCC were in favor of a discussion regarding the inclusion of course caps on course outlines. DAS is forming a workgroup to research this.

IX. SAG Report

- A. "Leapfrogging" Issue The fix to the "Leapfrogging" issue (new-to-district versus new-to-college courses) should be implemented by February 20, 2017. Now, whichever course is further along in the process will be assigned the "new-to-district" course.
- B. Out-of-Class work hours for Variable Unit Courses This should be resolved soon.
- C. Program Comparison Project Ken Sorenson from District IT is working on a script to run side-by-side comparisons of different versions of programs in SOCRATES.
- D. Ken Sorensen has become familiar with SOCRATES, in case Phil Smith is no longer available.
- E. Alphanumeric Ordering of Courses in Programs Discussions about whether this substantial project is worthwhile continue.
- F. CSERV Course Revisions Currently, CSERV courses cannot be revised. Phil thinks it will be an easy fix, but nothing will be changed pending the CSERV discussion in DAS.
- G. Typical "Student" Assignments section Dyan Pease noted the change of title of the "Typical Homework Assignments" section of the COR to "Typical Student Assignments." This has created concerns in lab only courses with no homework. It seems that this section should now reflect examples of any assignments, whether in class/lab or homework. Questions were posed as to when this change was made. Amanda Paskey mentioned that she thought this may have occurred when the DE sections in SOCRATES were revised since DE may not create a distinction for homework.

X. Discussion Items

- A. FITNS Families It has been noted that several FITNS courses are not in families though it seems they should. Michael Lawlor will e-mail Curriculum chairs with background materials to present to Kinesiology department chairs recommending that these courses be put into families as needed. There was a discussion that perhaps family requests could follow a process similar to collaboration requests.
- B. Requisite alignment Lynn Fowler provided some history of the "Rule of 5" in SOCRATES. Discussions included concerns that different prerequisites for the same courses at different college can produce several challenges, including potentially affecting financial aid. This discussion will be continued at future DCCC meetings.
- XII. Adjournment The meeting adjourned at 4:31 PM.

NEXT MEETING: 3/24/17
